 Untar Jakarta

 untar.ac.id

Untar is in
collaboration
with
**more than
100 global
institutions**

Welcome to the Universitas Tarumanagara, Jakarta, Indonesia where we can create new opportunities together, expand networks, and enhance the quality of education and research.

We invite you to explore the diverse collaboration opportunities available among our higher education institutions.

We offer several cooperation options between Untar and your university that can be established together in order to improve the quality of education, research, and community engagement.

Student Exchange or Mobility Program

Inbound/outbound student exchanges can be organised together for a short period of time or a whole semester to help students exchange knowledge and cultures with each other.

International Seminar / Conference

International Seminars/Conferences at Untar are held in order to improve and publish the results of research that has been carried out. Every year more than 5 events are held such as ICASTE, ICEBSH, TICASH, TICATE, ICEBM etc.

Joint Research & Grant

Together, we can address global challenges and create innovative solutions through interdisciplinary research collaborations. Explore opportunities to work together on challenging research projects, share knowledge and resources, and drive significant discoveries.

Dual Degree Program

A dual degree program allows students to earn two separate academic degrees concurrently, expanding their knowledge base and career opportunities.

Visiting Lecturer / Professor

Visiting lecturers/professors often deliver lectures, seminars, or workshops, sharing their expertise with students and the academic community. Their temporary presence enhances academic collaboration, fosters intellectual exchange, and contributes to the institution's reputation as a center of learning and innovation.
